Each workpaper below records one sampled transaction: the procedure it was tested under, the assertion that procedure supports, the auditor's question, the accountant's answer with every row it cites, and how the item was disposed of. Nothing on this page is written by a model: the transcript is quoted, the citations are rows, and the proposed entries come from a fixed table keyed by the kind of gap found.

Procedure

Unrecorded liabilities

Assertion tested

Exchange

Auditor

turn 1

Could you please show the ledger entry for the \$28.12 transaction with RideShare Co on 2025-01-05, referencing CARD-20250105-4549? [bank_transactions#4]

Accountant

turn 1

This response is assembled from the gathered rows rather than written by the model, because the drafted wording did not cite the evidence it relied on. Sample bank:4 rests on [bank_transactions#4] amount = -\$28.12. It is supported by [bank_transactions#4] reference = CARD-20250105-4549; [bank_transactions#4] counterparty = RideShare Co; [ledger_entries#29] debit = \$28.12; [ledger_entries#30] credit = \$28.12. Gap unknown_counterparty on [bank_transactions#4]: Bank payment CARD-20250105-4549 on 2025-01-05 sends \$28.12 to "RideShare Co", which is not a vendor with a contract, not payroll, and not Dodo Payments.

Controller

turn 3

Exception. Remedy: investigate. Counterparty is not a vendor on file. Identify it before the books close.

Evidence cited (5)

1. [bank_transactions#4] amount = -\$28.12 — The sampled bank line. CARD PURCHASE RIDESHARE CO on 2025-01-05.
2. [bank_transactions#4] reference = CARD-20250105-4549 — Bank reference for the payment to RideShare Co.
3. [bank_transactions#4] counterparty = RideShare Co — Counterparty on the 2025-01-05 bank line.
4. [ledger_entries#29] debit = \$28.12 — Debit Travel on 2025-01-05: Card purchase RideShare Co (CARD-20250105-4549).
5. [ledger_entries#30] credit = \$28.12 — Credit Cash on 2025-01-05: Card purchase RideShare Co (CARD-20250105-4549).

Gaps

Δ

unknown_counterparty

Bank payment CARD-20250105-4549 on 2025-01-05 sends \$28.12 to "RideShare Co", which is not a vendor with a contract, not payroll, and not Dodo Payments.

Disposition

×

Exception — ruled by the controller. Remedy: investigate. The proposed entry below is the correction.

|

Controller's note: Counterparty is not a vendor on file. Identify it before the books close.

Proposed adjusting entry

Account	Debit	Credit
Suspense — unidentified counterparty	\$28.12	—
Operating expenses	—	\$28.12
Park the payment in suspense until the counterparty is identified. Amount is the payment to the unidentified counterparty. Basis: [bank_transactions#4]		

Procedure

Unrecorded liabilities

Assertion tested

Completeness — nothing owed at year end is missing from the books

Exchange

Auditor

turn 1

Could you please provide the ledger entry for the \$90.00 transaction with Pixelboard Design on 2025-01-12 (ref CARD-20250112-9772)? [bank_transactions#10]

Accountant

turn 1

This response is assembled directly from the gathered rows, because the model call failed. Sample bank:10 rests on [bank_transactions#10] amount = -\$90.00. It is supported by [bank_transactions#10] reference = CARD-20250112-9772; [bank_transactions#10] counterparty = Pixelboard Design; [ledger_entries#53] debit = \$90.00; [ledger_entries#54] credit = \$90.00. Gap unknown_counterparty on [bank_transactions#10]: Bank payment CARD-20250112-9772 on 2025-01-12 sends \$90.00 to "Pixelboard Design", which is not a vendor with a contract, not payroll, and not Dodo Payments.

Controller

turn 3

Exception. Remedy: recover cash. Second settlement of the same reference. Chase the vendor for a refund.

Evidence cited (5)

1. [bank_transactions#10] amount = -\$90.00 — The sampled bank line. CARD PURCHASE PIXELBOARD DESIGN on 2025-01-12.
2. [bank_transactions#10] reference = CARD-20250112-9772 — Bank reference for the payment to Pixelboard Design.
3. [bank_transactions#10] counterparty = Pixelboard Design — Counterparty on the 2025-01-12 bank line.
4. [ledger_entries#53] debit = \$90.00 — Debit Software Subscriptions on 2025-01-12: Card purchase Pixelboard Design (CARD-20250112-9772).
5. [ledger_entries#54] credit = \$90.00 — Credit Cash on 2025-01-12: Card purchase Pixelboard Design (CARD-20250112-9772).

Gaps

Δ unknown_counterparty

Bank payment CARD-20250112-9772 on 2025-01-12 sends \$90.00 to "Pixelboard Design", which is not a vendor with a contract, not payroll, and not Dodo Payments.

Disposition

×

Exception — ruled by the controller. Remedy: recover cash. The proposed entry below is the correction.

Controller's note: Second settlement of the same reference. Chase the vendor for a refund.

Proposed adjusting entry

20. [ledger_entries#326] credit = \$9,200.00 — Credit Cash on 2025-03-27: Payment HPP-2025-03 to Harbor Point Properties LLC.

Gaps

- △ duplicate_payment Invoice HPP-2025-03 for \$9,200.00 was settled 2 times in the bank feed (#72 on 2025-03-24 and #73 on 2025-03-27), overpaying by \$9,200.00.

Disposition

- Needs more — ruled by the controller. Sent back to the accountant for more evidence.

Controller's note: Search the ledger for a Dodo clearing line dated within three days either side.

Proposed adjusting entry

Account	Debit	Credit
Accounts receivable — vendor overpayments	\$9,200.00	—
Operating expenses	—	\$9,200.00
Reverse the second settlement of this reference and set up the refund receivable. Amount is the duplicated payment. Basis: [bank_transactions#73]		

Dodo Payments · po_202503_md1m5s ✓

Procedure

Unrecorded liabilities

Assertion tested

Completeness — nothing owed at year end is missing from the books

Exchange

Auditor

turn 1

Could you please provide the ledger entry for the \$3,051.84 transaction with Dodo Payments on 2025-03-31, referencing po_202503_md1m5s? [bank_transactions#75]

Accountant

turn 1

The bank transaction for the Dodo payout on 2025-03-31 for \$3,051.84 is supported by the corresponding ledger entry debiting cash and crediting Dodo Clearing [bank_transactions#75] [ledger_entries#335] [ledger_entries#336]. The underlying Dodo transaction reference `po\_202503\_md1m5s` matches the bank and ledger references and reflects the calculated payout amount of \$3,051.84 [dodo_transactions#81]. Additionally, the payment processing fees of \$144.16 recorded on 2025-03-31 are supported by a separate debit to Payment Processing Fees and a credit to Dodo Clearing [ledger_entries#343] [ledger_entries#344]. The transaction ties out completely with no gaps found in the evidence.

Evidence cited (9)

1. [bank_transactions#75] amount = \$3,051.84 — The sampled bank line. DODO PAYMENTS PAYOUT on 2025-03-31.
2. [bank_transactions#75] reference = po_202503_md1m5s — Bank reference for the deposit to Dodo Payments.
3. [bank_transactions#75] counterparty = Dodo Payments — Counterparty on the 2025-03-31 bank line.
4. [ledger_entries#335] debit = \$3,051.84 — Debit Cash on 2025-03-31: Dodo payout po_202503_md1m5s for March 2025.
5. [ledger_entries#336] credit = \$3,051.84 — Credit Dodo Clearing on 2025-03-31: Dodo payout po_202503_md1m5s for March 2025.
6. [dodo_transactions#81] reference = po_202503_md1m5s — Dodo reference for the payout.
7. [dodo_transactions#81] amount = \$3,051.84 — Month 3 payout: 26 payments \$3,344.00 less refunds \$148.00 less fees \$144.16 (4% + \$0.40 each) is \$3,051.84.
8. [ledger_entries#343] debit = \$144.16 — Debit Payment Processing Fees on 2025-03-31: Dodo processing fees for March 2025 (4% + \$0.40 on 26 payments).
9. [ledger_entries#344] credit = \$144.16 — Credit Dodo Clearing on 2025-03-31: Dodo processing fees for March 2025 (4% + \$0.40 on 26 payments).

Disposition

✓ Defended — the auditor's follow-up policy accepted the evidence; no controller ruling was required.

Could you show the composition of payout po_202506_z2g4iO for \$4,250.48, specifically the calculation of payments minus refunds minus fees for that period? [dodo_transactions#180]

Accountant

turn 1

The Dodo transaction for the June payout of \$4,250.48 is supported by [dodo_transactions#180]. This amount was deposited into the bank account on 2025-06-30 with the reference po_202506_z2g4iO, as shown in [bank_transactions#137]. The bank deposit was recorded as a debit to Cash and a credit to Dodo Clearing in the ledger on 2025-06-30, which ties out to [ledger_entries#683] and [ledger_entries#684]. The associated processing fees of \$219.52 were also recorded correctly as a debit to Payment Processing Fees and a credit to Dodo Clearing on 2025-06-30, per [ledger_entries#695] and [ledger_entries#696].

Evidence cited (9)

- [dodo_transactions#180] reference = po_202506_z2g4iO — Dodo reference for the payout.
- [ledger_entries#695] debit = \$219.52 — Debit Payment Processing Fees on 2025-06-30: Dodo processing fees for June 2025 (4% + \$0.40 on 32 payments).
- [ledger_entries#696] credit = \$219.52 — Credit Dodo Clearing on 2025-06-30: Dodo processing fees for June 2025 (4% + \$0.40 on 32 payments).
- [dodo_transactions#180] amount = \$4,250.48 — Month 6 payout: 32 payments \$5,168.00 less refunds \$698.00 less fees \$219.52 (4% + \$0.40 each) is \$4,250.48.
- [bank_transactions#137] amount = \$4,250.48 — Bank deposit of the month 6 Dodo payout. DODO PAYMENTS PAYOUT on 2025-06-30.

Auditor

turn 1

Could you show the composition of payout po_202511_q4j90i for \$4,499.52, specifically the calculation of payments minus refunds minus fees for that period? [dodo_transactions#387]

Accountant

turn 1

The Dodo transaction [dodo_transactions#387] for the month 11 payout is recorded at \$4,499.52 and references the payout ID po_202511_q4j90i. This amount matches the bank deposit [bank_transactions#268] of \$4,499.52 made to Dodo Payments on 2025-11-30, which also references the same payout ID. The ledger entries [ledger_entries#1403] and [ledger_entries#1404] reflect the debit to Cash and credit to Dodo Clearing for the same amount of \$4,499.52 on 2025-11-30. The processing fees of \$209.48 are also supported by the ledger entries [ledger_entries#1415] and [ledger_entries#1416] which debit and credit Dodo Clearing respectively.

Evidence cited (9)

1. [dodo_transactions#387] reference = po_202511_q4j90i — Dodo reference for the payout.
2. [ledger_entries#1415] debit = \$209.48 — Debit Payment Processing Fees on 2025-11-30: Dodo processing fees for November 2025 (4% + \$0.40 on 43 payments).
3. [ledger_entries#1416] credit = \$209.48 — Credit Dodo Clearing on 2025-11-30: Dodo processing fees for November 2025 (4% + \$0.40 on 43 payments).
4. [dodo_transactions#387] amount = \$4,499.52 — Month 11 payout: 43 payments \$4,807.00 less refunds \$98.00 less fees \$209.48 (4% + \$0.40 each) is \$4,499.52.
5. [bank_transactions#268] amount = \$4,499.52 — Bank deposit of the month 11 Dodo payout. DODO PAYMENTS PAYOUT on 2025-11-30.
6. [bank_transactions#268] reference = po_202511_q4j90i — Bank reference for the deposit to Dodo Payments.
7. [bank_transactions#268] counterparty = Dodo Payments — Counterparty on the 2025-11-30 bank line.
8. [ledger_entries#1403] debit = \$4,499.52 — Debit Cash on 2025-11-30: Dodo payout po_202511_q4j90i for November 2025.
9. [ledger_entries#1404] credit = \$4,499.52 — Credit Dodo Clearing on 2025-11-30: Dodo payout po_202511_q4j90i for November 2025.

Δ rate_mismatch Invoice STR-2025-05 bills \$21,275.00, which is \$2,775.00 (15.0%) above the contract monthly rate of \$18,500.00.

Disposition

× Exception — ruled by the controller. Remedy: fix control. The proposed entry below is the correction.

Controller's note: Paid without an approver. The approval control did not operate.

Proposed adjusting entry

Account	Debit	Credit
Accounts receivable — vendor overpayments	\$2,775.00	—
Operating expenses	—	\$2,775.00
Reverse the amount billed above the contracted monthly rate. Amount is the invoice amount less the contracted monthly rate. Basis: [invoices#5] [contracts#1]		

Procedure	Assertion tested
Bank reconciliation	Existence — the cash movement is real and settled
Exchange	
Auditor turn 1	Could you please show which bank payment settled invoice STR-2025-07 from Stratus Compute Inc. for \$18,500.00? [invoices#7]
Accountant turn 1	The invoice for \$18,500.00 from Stratus Compute Inc. was issued on 2025-07-01 and approved by Priya Natarajan [invoices#7]. This amount is supported by the contract with Stratus Compute Inc. which fixes the monthly fee at \$18,500.00 [contracts#1]. The transaction was recorded in the general ledger on 2025-07-01 with a debit to Cloud Infrastructure and a credit to Accounts Payable [ledger_entries#697] [ledger_entries#698]. The payment was made via ACH on 2025-07-23 for \$18,500.00, which was then recorded as a debit to Accounts Payable and a credit to Cash [bank_transactions#159] [ledger_entries#787] [ledger_entries#788].
